RE: Wesbond COVID-19 Update for Customers and Vendors

Wesbond Corporation is considered to be an Essential business due to our status as a manufacturer of ceramic products and our customers' status as Essential suppliers to the US government.

We continue to work proactively to respond to the Coronavirus (COVID-19) outbreak. We are taking measures to protect employees and prepare for potential impacts on our operations.

Proactive preventive measures include travel restrictions and sanitary guidelines for all employees. We are also asking our employees to minimize face-to-face meetings and instead to use telephone or online contacts.

Our plant in Wilmington is currently operating, and we are taking steps to ensure continued product delivery to our customers. We are working with our suppliers to maintain stocks of raw materials; they are all working with their own supply chains to provide service.

We currently believe these measures will be sufficient to be able to meet customers' demands as a reliable source of supply.

We will continue to monitor the situation and heed guidance from the CDC, other health authorities, and our government officials, and adapt as needed. We will do our best to keep everyone informed throughout these trying times.

Thank you for your support as we work through emerging and constantly evolving issues.

Best regards,
